## This is what you can do in Austria

Be quick! Often there are short expiry periods of only three months in which you can demand your minimum wage. Otherwise you will lose your entitlements. For support, contact the VIDA union.

- Write a letter to your employer within the expiry period demanding your money. Keep a copy.
- Send the letter by post with recorded delivery. Keep the receipt.
- If you have made your written demand to your employer within three months, you have a maximum of three years to go to court.

This is what a letter to your employer should look like:

"Dear Mr/Mrs XY, I was employed at your company from ... until ... For this period I ar entitled to the Austrian minimum wage whit I have not received (entirely) for this period. I hereby assert this claim."
